

## Carbon Reduction Policy

### Policy and Principles

At BF Brickwork we are committed to minimising our environmental impact and contributing to a sustainable future. This Carbon Reduction Policy outlines our commitment to reducing carbon emissions across our operations, supply chain, and services.

We remain dedicated towards Carbon Reduction and our objectives are clear. We are committed to implement the following initiatives throughout the business:

- Reduce greenhouse gas emissions by 30-40% by 2030.
- Promote energy efficiency and the use of renewable energy sources in our processes.
- Engage with employees, suppliers, and clients in our sustainability efforts.
- Comply with all relevant environmental regulations and standards.

Our strategies include the following:

- **Energy Efficiency:** Implement energy-saving measures in our industry, such as upgrading to energy-efficient machinery.
- **Renewable Energy:** Invest in renewable energy sources, such as solar or wind power, to meet our energy needs.
- **Sustainable Materials:** Where feasible we aim to source raw materials from suppliers who adhere to sustainable practices, reducing the carbon footprint of our inputs.
- **Waste Management:** Enhance waste reduction strategies, including recycling and repurposing materials wherever possible.
- **Transportation:** Optimise logistics and transportation methods to minimize emissions associated with service delivery.

To adopt **Employee Engagement**, we will actively involve our employees in carbon reduction initiatives through training programs, workshops, and incentive schemes aimed at fostering a culture of sustainability.

We aim to continue to **Monitor and Report** our carbon footprint and run annual reports on our progress towards our reduction targets. Remaining transparent with help us assess the effectiveness of our strategies and take any necessary actions for improvement.

**Continuous improvement** is crucial to us in order to adapt to the everchanging industry. We will review our carbon reduction policy annually to ensure its relevance and effectiveness.

We are **committed to our stakeholders** and therefore will continue to communicating our carbon reduction goals and progress to our stakeholders, including customers, suppliers, and the local community, fostering a

[We will review this policy on an annual basis or sooner if necessary.](#)
